

# BIG SALE OF LOTS!!

In Elba Ala., at Public Auction,  
September 26, 1910, Beginning at 11:00 A. M.

On the day and hour above stated I will sell at public auction, in the reservoir grove, near the residence of I. T. Law, on Martin Heights FIFTY of the prettiest and most desirable lots in Elba. These lots all face on streets that have already been graded. They range from 80 to 172 higher than court house square in Elba, as shown by the survey made by the water works engineer at Elba. All of them are considerably less than half a mile from Pea River bridge. All are close to the business portion of Elba. Every one of them is above the fog and dampness of the river valley, and there are no mosquitoes. Physicians say nearly every body is healthier and better off living on high elevations. Each of these lots is well drained, well located and a fine place to live.

## ABOUT ELBA AND ELBA PROPERTY.

### ELBA OF TO-DAY.

The towns of this section are solid and substantial; no one who has bought lots or improved property in them has lost money, but all of them have seen their money grow in town property, some making profit of several hundred per cent in short time. Elba is solid and substantial town; many fine buildings, considerable wealth, it is building and developing without a boom; two brick stores built, brick office building being built, other brick buildings being changed and improved, several nice new residences all this year. Property at Elba steadily goes up, and it always rents well. Good churches, finest school in South Alabama, good people, electric lights and artesian water are some advantages. Number of wealthy and desirable people from distance have come to Elba this year, among them being S. W. Boyd, James Myhand, Judge Rigg, J. M. Hickman, F. W. Simmons. Thus Elba is growing and developing under present conditions.

I could wait and sell these lots at great prices in a few years; but I want to sell a portion of my holdings now, and spend the money. It is to your advantage that I help you put part of your savings in a good town that is safe and solid. Real estate is one of the best and safest investments on earth, and there is no better town than Elba; and the best of the best is on the hill in East Elba.

REMEMBER the Time. September 26th, 1910. Sale will Begin Promptly at 11 O'clock

In the Reservoir grove. There will be ice water and Lemonade for the crowd. I will be on the grounds several hours before the sale to show you the Lots.

TERMS: 1-5 Cash, or \$10 per lot down balance 1-5 in 3 months from date of sale  
1-5 in 6 months from date of sale  
1-5 in 9  
1-5 in 12

Come, Look, Listen and see. Opportunity knocks one time. It knocks now at your door. Titles are perfect. Taxes paid on all lots that are sold on credit till paid for. If you desire information before sale write me at Ozark.

### Sandhill Notes.

Eds. Clipper:—  
As there has been nothing sent in to The Clipper for some time from this neck of the woods, I give you a few notes.

The health of the people here is very good at this time.

The people are generally very busy now gathering their crops. The larger part of the cotton crop has been picked.

We are just fixing to start the porkers, and this is the most important part of the farm. I think there are hogs enough in our community to supply the farms and have some for market if the peanut crop holds out. And meat with bread to go with it is very good you know.

Well, Mr. Editor, we wish to say something of our school building. It is now nearly ready to be called completed. Our contractor, Mr. B. L. Donaldson, has been very faithful and deeply interested in making a good job of the work, and we give him our thanks for the good work he has done.

We also wish to call the attention of all interested to the fact that next Saturday, October 1st, we will all meet at the school house at 7 o'clock in the morning to clean off the grounds. Everybody is requested to come and bring hoes, axes and rakes for doing the work. Patrons of the school are specially requested to be on hand.

### Develop High Grade Cotton

Montgomery Journal.  
J. A. Wilkinson, commissioner of agriculture, is a developer of high grade cotton his Autauga county plantation. He calls it "Wilkinson On The Way to Perfection," and looks forward to making it a great boon to the Alabama farmers. He has run it down by selection, looking to three things: length of staple, hardness of shell and early maturity.

Long staple, some of it over an inch, makes the cotton worth the very highest price; hard shell makes impervious to anthracnose and early maturity helps it to escape the boll weevil.

Mr. Wilkinson will have enough seed from what he has raised this year to plant 50 acres next year, and after two or three more seasons he expects it to become a very valuable grade, getting in time to help in the fight that will be made on the boll weevil.

### Election At Samson

Geneva Reeper.  
The municipal election at Samson took place Monday, and, contrary to expectation, everything passed off as quietly as a prayer meeting. The Mizell supporters flocked by themselves and voted for their candidate at one polling place and the Holloway "rooters" did the same for their candidate in another place. The Holloway ticket received 81 vote at the Holloway box, and the Mizell ticket polled 105 votes at the Mizell box. Just which of these candidates is the "insurgent," is more the Reeper would care to state, and it is more than likely that the court will be called upon to unravel this complicated tangle.

## BUD BOWDOIN CRUSHED IKE PRESCOTT'S SKULL.

Paling Was Weapon Used. Prescott's Wound Will Result in Death.

Late Monday afternoon Ike Prescott was struck on the head by Bud Bowdoin, a paling being the weapon. Prescott's skull was crushed by the blow, and the physicians say he can not recover.

It is said that Prescott stopped at the home of Bowdoin and that he and Bowdoin were drinking. It is also said that a quarrel arose and as a result there came the killing, after Prescott tried to hit Bowdoin with a whip.

Bowdoin is at large. Prescott is at noon today reported rapidly sinking, with his life only numbered in hours. Bowdoin and Prescott were brothers-in-law.

### In The Boostin' Biz.

Do you know there's lots o' people  
Settin' round in every town,  
Growlin' like a broody chicken,  
Knockin' every good thing down?  
Dont you be that kind o' cattle,  
'Cause they ain't no use on earth;  
You just be a booster rooster—  
Crow and boost for all you're worth.

If your church needs boostin', booster,  
Dont hold back and wait to see,  
If some other feller's willin'—  
You sail in; this country's free,  
No one's got a mortgage on it,  
Its just yours as much as his;  
If your church is shy on boosters,  
You can get in the boostin' biz.

If things dont seem to suit you,  
An' the church seems kinder wrong,  
What's the matter with a boostin'  
Just to help the thing along?  
'Cause if things should stop agoin',  
We'd be in sorry plight;  
You just keep that horn a-blowin'  
Boost'er up with all your might.

If you see some feller tryin'  
For to make the project go,  
You can boost it up a trifle;  
That's your one to let him know  
That you're not agoin' to "knock" it  
Just because it aint your "shout,"  
But you're goin' to boost a little  
'Cause he's on the best thing out!

If you know that feller's failin',  
Just forget 'em, 'cause you know  
That same feller's got some good points,—  
Them's the ones you want to show.  
"Cast your loaves out on the waters,"  
They'll come back "a sayin' true;  
Maybe they'll come back "battered,"  
When some feller boosts for you.

### Circuit Court.

Circuit Court for this county resumed work Monday afternoon and the criminal docket was taken up.  
The case of John Barker, charged with seduction, was called but the indictment was defective, and defendant was bound over under \$1,000 bond for new indictment.  
Tuesday morning Freeman Lewis was tried for disposing of mortgaged property, and at noon, the hour we go to press the jury is still out on this case.  
The case of Mrs. Ida Clark, charged with murder, has been called, and the jury is now being selected. It is probable that this case will not be disposed of before tomorrow.

### Dissolution Notice.

The firm of Morrow & Clark is dissolved by mutual consent, J. L. Morrow retiring. The style of the new firm will be Clark & Patrick, who assume all the liabilities of the old firm and are authorized to collect all accounts due the old firm.

NOTICE TO THE PUBLIC: The undersigned, J. L. Morrow, of the county of Elba, Alabama, do hereby certify that the above is a true and correct copy of the original filed in my office on the 26th day of September, 1910.

**CRIMES** Captain L. A. Hunt, of the Elba, Ala., police, was on his way to Richmond to attend a meeting of the district managers of the Southern Cotton Oil Company in Richmond.

A male belonging to P. H. Morris, of Dallas, Paulding county, Ga., was the victim of an unusual accident that resulted in his death, at the corner of Lucile avenue and Culberson street, in West End, Atlanta. The animal gnawed himself to death on the tongue of the wagon, which he had just broken in shying from a street car.

In one of the handsome homes of Holdrege, Neb., Mrs. C. J. Beedle, shot her husband, perhaps fatally, and then ended her own life. The tragedy follows alleged domestic troubles of long standing, which in the past two or three weeks had become acute. Mr. Beedle is one of the leading attorneys of central Nebraska and prominent in politics.

The third and fourth class postmasters of Georgia in their annual session in Atlanta re-elected the same staff of officers that served during the last year. The officers are: President, W. W. Webb, of Hall; vice-president, W. B. Cobb, of Temple; secretary, S. R. Pope, of Buchanan.

Nine hundred and forty bales of cotton were received Saturday at the American warehouse and very generally sold at above 13 cents. Farmers are selling their cotton rapidly, despite the very poor crop locally. Saturday's wagon receipts makes the total warehouse receipts at American 5,500 bales.

Petition for the indictment of the so-called sugar trust will be filed in the United States court at New York soon. This is an action entirely independent of the indictments which were found some time ago against the American Sugar Refining Company and some of its officers. It was a subject of conference in New York between Attorney-General Vickersham and United States Attorney Wise.

The Utah Democratic state platform adopted at the state convention at Provo, Utah, demands a prohibition law, direct primary elections, the election of United States senators by popular vote, the initiative and referendum and recall and a tariff commission. The convention plank advocates co-operation by the state and national governments and the widest use of public lands for settlement and mining.

In conformity with the recommendation made just before death, Judge Onkes, federal commissioner, for marking graves of Confederate soldiers and sailors who died in northern prisons during the civil war, the war department has awarded a contract for the construction of a monument costing \$20,000 in the Confederate cemetery at Fort Lookout, Md., where lie buried the bodies of 3,350 Confederates. Lack of identification prevented the erection of individual headstones.

Thomas R. Preston, president of The Nashville American, has denied the report that The American property had been sold. Mr. Preston said: "There has been no sale of The Nashville American property. As president of the company I make this statement and this is official and absolutely correct."

Seven young men, the honor graduates of colleges at which army officers are serving as instructors, have been appointed second lieutenants in the army, according to a Washington, D. C. dispatch. Among those appointed to the infantry are Whitman R. Gennelly, Ninety-six, S. C., and Robert Q. Sherrard, Burnet, Texas.

The republicans of the third congressional district of Tennessee, in convention at Chattanooga, nominated Major Charles R. Evans, nephew of H. Clay Evans, for congress. Judge John A. Moon is the democratic nominee.

J. R. Keagney has been appointed superintendent of transportation of the Baltimore and Ohio railroad, succeeding Charles W. Galloway, who had been promoted to general superintendent of the southern district. The Westinghouse Air-Brake Company has declared a regular quarterly dividend of 10 per cent, an extra dividend of 10 per cent, payable October 10.  
Gifts to the Yale university totaling \$50,000 were announced at a meeting of the corporation at New Haven. The largest was one of \$20,000 from the estate of John B. Collins, of Fort Worth, Texas.

## \$778,894.094 VALUE SEASON CORN CRCP

Many Millions In Excess of Previous Year.

### RECORD BREAKING RETURNS

According to Estimates of Experts the South Obtained More Money for Its Cotton the Past Season Than Ever Before in Its History.

In spite of a short crop year, the south obtained more money for its cotton during the past season than ever before in its history, according to the season-end statistics put out by Col. Henry G. Hester, secretary and statistician of the New Orleans Cotton Exchange.  
The money value of the crop, not including cotton seed production, amounted to \$778,894,094, showing that while the quantity of cotton marketed was in round figures 3,215,000 bales less than last year, better prices for cotton resulted in its bringing \$25,099,601 more.

The nearest approach to this was made in the season of 1907-8, when the total value of the commercial crop was \$715,352,265. When the value of the cotton seed, \$121,000,000, is added, the actual wealth producing capacity of the southern cotton lands is shown to have been \$836,352,265 during the past season.

During the previous season, that of 1908-9, the value of all cotton produced was \$683,794,494, and the cotton seed was valued at \$92,000,000, making a total of \$775,794,494. Thus during the past season the value of the cotton and cotton seed combined surpassed the previous season by more than \$125,000,000.

### LEATH OF JULIUS BROWN.

Prominent Atlanta Lawyer and Oldest Son of Late Senator Brown.  
Julius L. Brown, son of Georgia's war governor, one of Atlanta's most widely known citizens, a leading member of the bar, and prominent in the Masonic order, died Sunday at his home on Washington street, after a long illness.

Though Mr. Brown has been in poor health for a long time, his death came as a surprise to many who had known him.

More than three years ago he gave up business entirely, and set about recuperating. He visited the best specialists in various countries, and yet did not improve.

Julius L. Brown was the first child and the oldest of eight children of Hon. Joseph Emerson Brown, Georgia's war governor, and one of the state's few chief executives who occupied the governor's mansion for four terms, and a member of the United States senate for many years.

Mr. Brown leaves a wife, two sisters, Mrs. Dr. Connally and Miss Sallie Brown, and three brothers, Governor Joseph M. Brown, Elijah Brown and George Brown, and a number of nephews and nieces.

Mr. Brown was one of Atlanta's most prominent entertainers, and has had as his guest at his home some of the most prominent and distinguished people of the country.

**GENERAL** Pearls are growing on MEWS cocooned trees in the Keweenaw by peninsula and life novel discovery has been made the subject of special report from Omaha to General Dubois to the department of commerce and labor at Washington, D. C. The pearls are said to be not unlike those of the oyster, containing calcium carbonate and a little organic matter. Certain reactions from just beneath the stem of cocoon shell and the result is a pure white pearl, which brings a high price. The pearl is supposed by the Males to possess some kind of charm.

Lieutenant Helm, the alleged German spy, was arraigned in court at London, Eng., charged with having committed a felony in obtaining information concerning the Portsmouth defenses for the purpose of communicating the same to another state. Helm was arrested while sketching the fortifications. The case was adjourned to September 20.

The congressional convention for eighth Georgia district, called by the committee on September 15, met at Athens and resulted in the nomination of W. M. Howard by the regular caucus, convention, and of S. L. Tully by a preliminary meeting, which had gathered at Athens from the surrounding counties. Both candidates claim the regular nomination.

SLAIN BY ASSASSINS.

Ed Sherrod and J. F. Hewitt shot from ambush and killed. Ed Sherrod and J. F. Hewitt were shot from ambush at Cook's camp, 20 miles north of Huntsville, Ala., and killed. Six suspects are now in the Scott county jail. Those arrested are John Birch and son, Joe Low, Nelson Low, Jack Low and Jack Bradley. The killing is supposed to have been a sequel to the killing of Riley Low three months ago by Hewitt. It is alleged.

Sunday morning Ed Sherrod and J. F. Hewitt were standing in front of the Cook commissary on the Tennessee railroad, when they were first upon from ambush and killed. Sherrod and Hewitt were prominent citizens of Scott county.

Governor Hanson honored a resolution for the return to West Virginia of William J. McChesney, a laborer from Bellows, Ohio, to Wheeling, W. Va. It is alleged that McChesney found while excavating, \$24,000 in gold, the property left by Guther Schuchardt, deceased, and that he appropriated it to his own use.

### SENSATION SPRUNG IN CHURCH CIRCLES

Savannah Pastor Ousts Elders Seeking His Own Scalp.

TEN WERE DISPOSSESSED

Rev. W. A. Neeb, at one time a merchant of Atlanta, but now pastor of Presbyterian Church in Savannah, disposes of elders who were fighting him.

A sensation was sprung in church circles in Savannah when Rev. W. A. Neeb, pastor of Westminster Presbyterian church, disposes of ten of the fourteen elders and deacons of the church who voted to let him resign several weeks ago. This act prevents the elders and deacons from taking the sacrament or performing any official duties in church or Sunday school.

Among those "dispossessed" are the superintendent of the Sunday school, three of the assistant superintendents and several teachers. The act practically disorganizes the Sunday school.

The "dispossession" followed the refusal of the elders and deacons of the church to continue their duties as such until the pastor resigns according to a request made by eleven of them.

After the request for his resignation was made, the pastor announced that an offer had been made by a donor, whom he did not name, to erect a \$40,000 memorial church to bear the name of the donor, and that he had accepted the offer. The deacons took the position that as the building committee of the church they ought to have been consulted. They wanted to accept the donation under the condition that the plans of the donor would be acceptable to them.

In a congregational meeting the members of the congregation stood by the pastor and the deacons and elders, among whom are some of the best known financial and business men in the city, gave up their homes and declined to continue their duties further. This was followed by the pastor's resignation.

This act is being contested by the deacons and elders, who claim the pastor cannot take this step and that only the presbytery can excommunicate them. A special meeting of the Savannah presbytery has been called to pass upon the matter. The deacons and elders will ask the presbytery to sever the pastoral relations of Mr. Neeb with the church. Before entering the ministry, about thirty years ago, Rev. W. A. Neeb was a prominent furniture merchant of Atlanta.

### CAUGHT ON TRELLIS.

Two children run down by a Fast Passenger Train. Herbert, the 12-year-old son of Mr. and Mrs. L. F. Thompson, was instantly killed, and Johnnie B., the 11-year-old son, was seriously injured by being struck by a freight train at Station No. 1 of the Georgia, Florida and Alabama railroad at Edison Ga. The children were walking along the railroad tracks, and were overtaken on a trestle and run down by the swiftly moving train.

The body of the younger boy was frightfully mangled, death resulting instantly. The other child was buried 50 feet into a ravine. His escape from instant death is regarded little short of miraculous. He was very painfully injured, but will recover.

### CONFESSES TO KILLING.

Feeble-Minded Girl Says She Slaw Men When They Whipped Her. Elmy Sheppard, the 15-year-old daughter of J. W. Sheppard, who, with his brother, Taylor Sheppard, was murdered at their home in Newkirk, Okla., Friday morning last, it is said, confessed to the county attorney and sheriff that she killed the two men. In her confession she declared the cause of the crime was that the men whipped her. She also went to the woodshed, secured the ax with which the crime was committed, and gave it to the officers. The girl has always been considered feeble-minded.

The largest gathering of negroes ever held in the city of New Orleans occurred at Washington Armory Hall, when President D. E. C. ## Never Before Were Values Like These Possible.

Not possible because the making of ready-for-service clothes is today a science, and only the most recent progressive strides have evolved the unusual features in these clothes.

Stylish clothes—good-fitting clothes—have long been possible at high prices, but stylish, good-fitting clothes, capable of retaining their style and fit and rendering long service have but recently become possible in garments at moderate prices.

They are the result of an aggressive policy and a great tailoring organization like that of Goldman-Beckman & Co., of Cincinnati.

There are real reasons for this new standard of excellence. A few are given here.

The fabrics in these garments are chosen by experts who every season examine over 40,000 patterns, each receive the full force of their impartial judgment. Therefore, the patterns you may examine here today are the very essence of best—the carefully chosen *best* of thousands.

Two designers spend every working day in the year studying, evolving, creating styles. They make copies of models, from which only the *choicest* (a possible dozen all told) are submitted to you. Every feature of every garment is produced in a special department. Experts buy our canvas and our hair cloth. Experts shrink all materials—threads and silks for sewing are tested and must be above standard strength. Experts select the proper grade, weight, quality and color of lining to harmonize with the fabric or lend a pleasing contrast. Buttons selected from every source to most appropriately conform to the different fabrics.

Of still more importance, the wonderful tailoring organization. Master cutters, tailors, and workmen, each employed for his exceptional ability. Even to the pressing special effort is expended. Machines operated by electrical power exert tremendous pressure with automatically controlled temperature between doubly heated surfaces, insuring the thinnest possible, non-curling edges without stretching or puckering. The combination of heat and extreme pressure makes possible a perfectly cured garment, which cannot be affected by wear.

Every subject treated above could be elaborated upon to the length of the chapter. We merely call them to your attention that you may know there are real reasons behind the quality claims of these garments. Become informed to your full satisfaction by a personal examination of the new Fall stocks now on display.

### Free Dyspepsia Sample

Sufferers from indigestion are waking up to the fact that pepperment, lozenges, charcoal and "dyspepsia cures" are only makeshifts in the cure of so troublesome a complaint as chronic indigestion. What is required is something that will not only relieve but which will tone and train the digestive apparatus to again do its work normally, and this these simple remedies cannot do.

There is something more to the cure of indigestion than sweetening the breath, and yet a remedy that cures permanently, as the basis of indigestion is a poor bowel action, and that of no scientific laxative. We know of no other remedy that combines these two requirements better than Dr. Caldwell's Syrup Pepsin. It has been sold for a quarter of a century.

Dr. Caldwell's Syrup Pepsin is a laxative tonic, a scientific blending of natural ingredients for the cure of constipation, indigestion, liver trouble, sour stomach, sick headache, and similar complaints. Its ingredients will strengthen and tone the stomach and bowel muscles that they will again do their work naturally, and when they have been accomplished, as was O. Tuck, Blackburn, who found his cure with this remedy. They became "dyspepsia cures" etc., were at best only a temporary relief.

Dr. Caldwell's offer of a free sample lot of his pills and tablets, salts, "dyspepsia cures" etc., were at best only a temporary relief. They first accepted his offer of a free sample lot of his pills and tablets, salts, "dyspepsia cures" etc., were at best only a temporary relief. TRAGEDY AT ABBEVILLE.

Crazed by Jealousy Man Does Some  
Deadly Work.

Insane because his attentions had been rejected by Mrs. Eugene Royal, a widow of Abbeville, Ga., and crazed by the alleged effects of protracted drinking, B. Manass, shot and killed Mrs. E. H. Williams, wife of ex-Mayor Williams, a sister of Mrs. Royal, dangerously wounded Mrs. Royal, and then turned his revolver on himself, inflicting mortal wounds. Physicians say that there is a probability that Mrs. Royal will recover. The tragedy caused the greatest sensation in Abbeville. All of the parties are prominently connected. Mrs. Williams and Mrs. Royal having a number of friends throughout the state. Manass, who is a widower, is said to have been in love with Mrs. Royal for a long time. She had rejected his suit on several occasions, but Manass had shown no signs of attempting to revenge his rejection until the day of the tragedy.

The phenomenon of the influenza of the blood of St. Januaria took place at Naples, Italy, after several lasting fifty-five minutes in the presence of a great multitude. The people interpret the rapidity of the influenza as proof that the port from cholera is over.

Josef Kainz, the German dramatic actor, died at Vienna. He was born in 1858 and made his first appearance on the stage when he was 16 years old. He had toured the larger cities of America.

Fire of unknown origin which started in the furniture warehouse of J. B. Sanders, Elms, Texas, destroyed six business houses. The loss is estimated at \$75,000.

Reports from Russia, Italy and Germany indicate that the epidemic of cholera is abating. Officers of the foreign corps at Washington, D. C., report they have no doubt the present epidemic originated in Odessa, and that rats were the cause. From Russia the officers traded the plague into Italy.

General Akashi, of the Japanese army, stated that quiet prevailed throughout Korea. He advised that the Japanese had captured several hundred Koreans and committed suicide in protest against Japanese domination. He would soon be expected to prove their assertions in a court of law.

Egypt's cotton crop this year, it is estimated, will exceed 700,000,000 pounds, and United States Consul Birch, at Alexandria, reports that probably the largest crop ever yielded by Egyptian fields. He declares that weather conditions both in upper and lower Egypt have been favorable for the crop.

A grant of about \$200,000,000 accorded to the Italian government last year because of the national lottery run under governmental control. The total lottery receipts were nearly sixteen and one-half millions of dollars, an increase of more than one-half million dollars over the preceding year.

The international jury chosen by the German societies of Chicago to select a prize for the Goethe memorial to be erected in Lincoln park, in that city, decided upon the design submitted by Prof. Herman Fisher.

Two shots were fired into the governor's carriage at Panama City, Cantabrigia. The occupants, who were the president of the court and other officials, were uninjured. The assassin escaped.

Alexander Ivanovich de Neldoff, Russian ambassador to France and president of the second Hague conference, died at Paris. M. Neldoff was stricken with apoplexy while passing through Munich on August 4. Empress Marie Carillo, widow of Emperor Maximilian, of Mexico, who has been ill for a long time, is reported to be failing rapidly, and a dispatch from Brussels.

A report recently published says  
that over \$500,000,000 is now in-  
vested in automobiles in this coun-  
try and it is expected that \$800,-  
000,000 more will be put in these  
"stink wagons" before another 12  
months passes. The same author-  
ity says that it takes \$500,000,000  
a year to keep these machines go-  
ing—that is to pay for gasoline,  
oil, repairs, etc. The average man  
cannot appreciate what an im-  
mense amount of money these fig-  
ures represent. They mean that  
the money spent on automobiles in  
a single year would buy all the  
real estate and personal in the  
state of Alabama at the tax val-  
uation. That the money spent in  
running these machines one year  
would pay all the expense of our  
state government, including educa-  
tion and pension funds for an hundred  
years, and there would be enough  
over to elect a U. S. senator in  
Mississippi.

## PAM-ALA A Radical Remedy for MALARIA

Unlike many medicines for this disease which only relieve, Pam-ala cures effectively and quickly. Brings the poison from the blood. Easily taken by the most sensitive patients.

Contains no quinine, arsenic or any other harmful drug.

Mrs. T. J. McEwen, 634 South St., New Orleans, writes:

"Having suffered for years from Malaria—Chills and Fever—I was glad to learn of your Pam-ala. After taking it the fever left me and I felt like a new person. I hope that Pam-ala will reach every Malaria sufferer."

Is it worth while to suffer, shiver and shake when relief and cure may be obtained from this reliable drug for \$1.00. Small size 50c.

David & Lawrence Co., Selling Agents, New York.

One of the Ozark papers published last week an account of a man who farms near Dothan that sounds good and must be true. This farmer runs ten plows on what was considered about as poor a body of land as is in this state. This year with the ten plows he will make over \$9,000 clear money. He has 125 acres in cotton that will make near a bale to the acre, and in addition to this has sold about \$2,500 worth of cattle and hogs. We don't know of any business that pays better profit than this kind of farming.

Best in the Work.

It would just require a thousand or twelve hundred dollars from our citizens, with the government would give, to establish an experimental farm near Elba. Such a farm would save the farmers at least \$50,000 a year by learning them how to fight the boll weevil that will surely be here within a year or two.

Mayor Gaynor, of New York City, is being urged by his friends to make the race for governor of New York with the expectation of being the democratic candidate for president in 1912. The last candidate the democrats had from the east was of Mayor Gaynor's kind and we all know how badly he was beaten.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by All Drug-gists.

A good sign of the times is the way city real estate agents are pushing farm lands to the front in their advertisements. It proves that there is a great demand for farms among city people and that the cry of "back to the farm" is getting to be something more than "sounding brass and tinkling cymbals."

Eggs are quoted at 27c a doz. in case lots. One hen ought to lay two dozen eggs a month and rest on Sunday. If one hen brings 55c a month a 100 hens will bring \$55.00, and a 1000 hens \$550.00. And with an income of \$500 a month you can do anything—ride in an auto and eat real hog meat every day.

The new Methodist church project moves steadily forward. On last Wednesday night a special quarterly conference authorized the trustees to sell the old church property, and on Saturday a deed was made to Mr. R. M. Wilder for the same. The proceeds will be applied to clearing the new building of indebtedness. Let every citizen and public spirited man now help along this enterprise. It will be an ornament and credit to the town. Every shoulder to the wheel. Don't be "knocker."

# BROCKTON.

By B. F. WEAVER.

Mr. I. A. Byrd was very ill the past but is improving.

The little son of Mr. J. B. Moore was very sick for a few days last week.

Rev. C. E. Jones, the Advocates' representative was in town last week.

Miss Johnnie Mae Leary of Enterprise is visiting Ben Kelley of Richburg.

Mr. Gus Wright recently purchased a home from Mr. Sam Morgan of Enterprise.

Several citizens contemplate moving here for the school advantages.

Our people see that more stores here mean more business for those already established and they are ready to welcome others.

A large furnishing business with plenty of money and influence behind it to make a decided success is expected this fall. Come on gentlemen, you will be welcome. We need you.

Mr. Woodham, a prominent citizen of Ozark has purchased two brick stores from Mr. L. E. Marley. He is going to move here soon and put in a live stock business.

Only this week Sawyer Bros. have stuck an engine down by the spring northwest of town and are pumping water to their gin.

Brockton is well drained, and well watered, has good churches and a good school and other advantages to make it a good home. Come to Brockton.

In thanking Hustler for the compliment paid us we will add that his bright, ringing notes have put us some what in the shade.

One thing that is a little peculiar to the writer is the large number of pumps used here in very deep wells. He came from up in "the hill," he thought; but the wells there will not average near so deep as here. These wells are sunk into a strata of sand and one here in Brockton with a wind mill hitched on to it would furnish enough water for the town.

Sunday was the day for regular service at the Baptist church here and Rev. Lee of Elba occupied the pulpit at the morning service. He was pastor here last year and is always welcome in New Brockton. Rev. Loftin the present pastor was chosen again for the coming year.

A town like Brockton where there are no suspicion breeding factions in church or school or politics, and where in business each man is glad to see the other succeed a town like this, readily responds to any indications of better times hence Brockton is becoming enthusiastic as more trade is coming our way, more people are talking of moving here and more business enterprises are on foot.

Under a recent act of the legislature all towns of less than 1,000 inhabitants had the privilege of electing a school board at the time mayor and aldermen were chosen. It has developed that Brockton did not do this and now it is the duty of the governor to appoint the board.

Let the people of this district select some good men to recommend. The only change will be change of authority from the County board to the local board. The writer has taught in towns where the change had been made and finds it better for the school.

Don't forget about the school, you who have not started your children. The term has been shortened. All fall come the full of. The week is here for

## A FABLE.

In a certain town there was a public Building where Teachers meet to teach the children how to read and cipher and do many other things to develop their minds, preserve their bodies and train their souls.

This Building was the pride of that town but Woods had grown around it, and much dust had settled inside of it and animals called Men had chewed up a Noxious Plant and left the juice and chews on the floor. (The other part of the plant was used for the teeth, breath and nerves of the Men.)

Now these Teachers looked at all this by which the Building was surrounded and call it Filth and they said: "These children do not have this at home and it will not be good for them," so they called a meeting of the Town for they had seen Men standing in the Market Place and on the Highway where the Trains went by.

When the day came for the Meeting no Men came and when the Teachers inquired of those who stood in the Market Place "Why stand ye here idle?" They said "you have not hired us."

Then the teachers remembered that in that town there were Women and perhaps they would help to remove the Filth so they were invited but "They all began to make excuse." One had a Husband and must cook some Victuals for him. Another had children that must be run after and a third had a Headache.

Then the Teachers realized this new Truth: "If you work you must be hired." So they had the work done and paid Some \$'s for it and every body was happy again.

Dr. Bell's Pine-Tar-Honey. J. W. McDaniel, Eberton, Ills. says: There is no medicine which equals it for coughs, colds, Grippe, asthma and Bronchitis. Look for the Bell on the Bottle.

The New Brockton Graded School opened Monday A. M. with a large enrollment of pupils. Several visitors were present at opening and much interest was manifested. Former Principal J. E. Marley gave a short talk encouraging the present teachers. B. F. Weaver, Miss Mamie Rivenbark and Miss Minnie Harris. We have good prospects for a flourishing school.

## Blood Poison.

Is prevented by applying Dr. Bell's Anti-Pain to cuts, scratches, and bruises. It destroys all septic matter enables the wound to heal without soreness. Be sure to get Dr. Bell's.

## Brundidge.

From the News.

The announcement has been made that the Brundidge post-office has been advanced to the third grade of presidential offices. The salary of which will be \$1,000 per year, and placing the appointment of postmaster in the hands of the president.

Eugene McGee, colored, a tenant on Mr. H. A. McLane's plantation, is a boss farmer. He will make eighteen bales of cotton and two hundred bushel of corn with one mule. He leads the cotton pickers of Pike or any other county. Wednesday of last week he picked six-hundred and twenty-six pounds in one day—more than a third of a bale. Mr. Mack wants any one who can beat this record to trot out and prove the pudding.

There was a row among a lot of negroes on the Burr Ramage place last Sunday, in which one by the name of Am Jones was shot three times from which he died. Deputy Davis was sent to investigate but did not succeed in arresting the one who did the shooting, whose name was Finn. From the number of killings in the past year or two, it looks as if Pike might be benefited by a legal rope stretching.

## For use on Face and Hands.

Dr. Bell's Antiseptic Salve is the best. It is a creamy snow white ointment and one 15c box will last three months.

## Don't Break Down.

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run-down, or under strain of any kind, take Electric Bitters the machine's tonic medicine. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed. 50c at Harp Drug Co.
